

**We've Broken the
Pressure Barrier for
Electric Pressure Washers.**

Introducing the YF2200BL

The first electric pressure washer to produce +2200 PSI operating on a standard household outlet with a 15 Amp breaker.

Our patented* brushless motor technology, combined with a state-of-the-art pump, is taking electric pressure washer performance to a higher level.

The YF2200BL delivers performance, versatility and quality to meet your customers' demands – and we've got the data to prove it.**

*Patent pending

YF2200BL Electric Pressure Washer

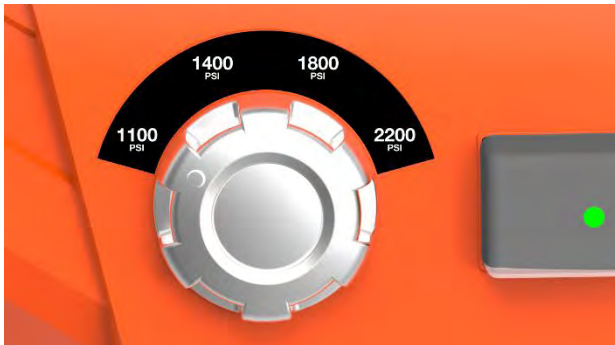

Built-in accessory storage keeps everything accessible.

Quick-release knobs make folding and unfolding the handle simple.

Quick-release hose and power cord storage make set-up and storage quick and easy.

Pressure control knob to set the right pressure for every job.
2200 PSI, 1800 PSI, 1400 PSI, 1100 PSI

Hose connection points are **easy to access**.

Brushless electric motor with soft start utilizes the latest advancements in technology for high performance and long duty life. Reduced weight is easier to lift, roll and transport than universal and induction motors.

State-of-the-art pump provides up to 2200 PSI of consistent and reliable performance.

Axle location is centered at “zero-gravity” point to make transport around the work area easy.

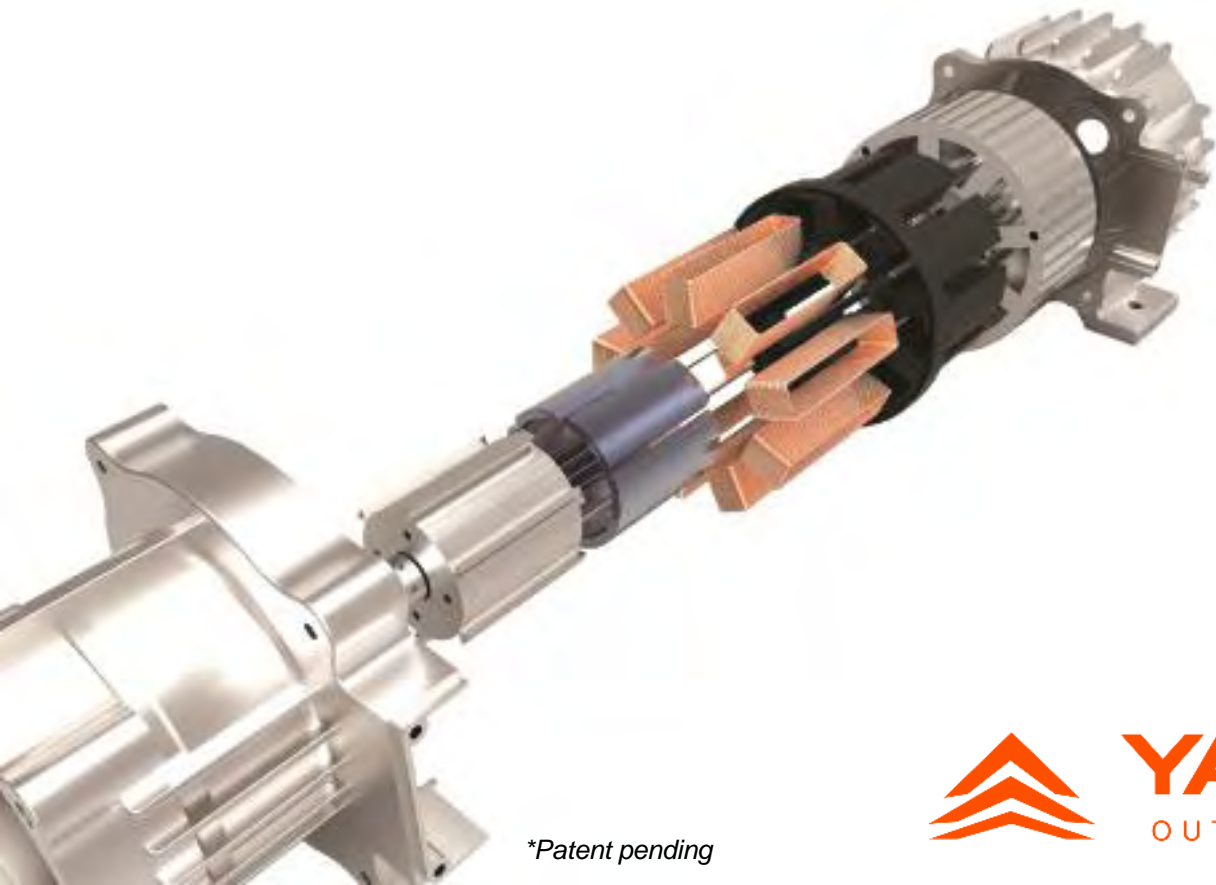

12” high profile wheels roll easily around all terrain, over curbs and up stairs.

...Innovative brushless motor technology!

- **More efficient!**
- **Longer life!**
- **More power!**
- **Less weight!**

The patented* brushless motor technology in our new YF2200BL generates performance never achieved in an electric pressure washer before.

Using electricity more efficiently to improve our lives.

**Patent pending*

YF2200BL Electric Pressure Washer

Performance:

2200 PSI @ 1.25 GPM

Includes:

- Trigger handle with metal wand and quick-connect tip
- 0°, 15°, 40°, Soap and **BONUS Turbo Nozzle!**
- 25' rubber hose
- High efficiency detergent syphoning system

Superior Features in its Class:

- Powerful brushless motor with digital controller
- Pressure control adjustment
- Roll-cage cart with folding handle
- 12" PVC wrapped wheels
- 3-Year Warranty!

YF2200BL Electric Pressure Washer

Voltage: 120v / 60 Hz
Amperage: 13 Amp
Working Pressure: 2200 PSI
Flow Rate: 1.25 GPM
Hose Length: 25' non-marring
Power Cord Length: 35 ft.
GFCI: Pigtail
Wand: 1/4" Quick-connect tip
Nozzles: 0°, 15°, 40°, Soap and Turbo
Detergent: High efficiency syphoning system
Wheel Size: 12 In. PVC Wrapped
Includes: Pressure Washer, 25' hose, handle with stainless steel wand, 4 QC nozzles, turbo nozzle, tip cleaning needle.

**First-to-Market
Best-in-Class**

**BONUS
Turbo
Nozzle!**
