professional generac spray gun

- Adjustable side handle for precise control
- Thicker cushion grip for extended use
- Easy-to-pull trigger reduces fatigue
- Rear hose connection for maximum convenience

PSI	3000
Model Number (50-/State)	6228
GPM	3.0
Cleaning Power	9000
Engine	265cc Subaru with low-oil shutdown
Pump	Triplex with ceramic coated pistons and pressure adjustment valve
Generac-designed Spray Gun	Professional grade spray gun
High-Pressure Hose	3/8" x 50 ft steel reinforced non-marring rubber
Quick-Click™ Nozzle Tips	(4) 0°, 15°, 25°, 40°
Wheels	5" x 13" Pneumatic
Warranty	Limited 3 year
Weight	178 lbs. (80.74 kg)
Dimensions (L x W x H)	39.5" x 28.5" x 26" (100.33 cm x 72.39 cm x 66.04 cm)

Industrial

belt-driven power washers

- Powerful Subaru® engine delivers optimal performance in industrial applications
- Industrial-grade belt-driven triplex pump with ceramic coated pistons for long life
- Dual cogged belt drive system for increased life
- Pressure control valve provides complete control of water pressure for all applications

frequently asked questions

What is a power washer?

A power washer is an outdoor power tool that makes cleaning easier by using a high-pressure spray of water to clean a surface. A gasoline engine or electric motor drives a pump, which delivers water using your home's water supply. The water enters the pump, is pressurized inside the pump, and exits the pump at as much as several thousand PSI, depending upon the unit.

The force of the high-pressure spray loosens dirt and flushes it away. On more professional-grade models, the spray is even powerful enough to strip paint, which is useful in paint preparation. You can use many detergents with a pressure washer, too, for even more effective cleaning. And there are accessories you can buy that make cleaning even easier.

What is "PSI" and "GPM," and why are they important?

Short for "pounds per square inch," PSI is a measure of the water pressure coming out of the power washer. A typical garden hose dispenses water at about 30-40PSI, and a coin-operated car wash provides about 700PSI. A power washer, by contrast, typically dispenses water at several thousand PSI.

Together, they provide your power washer's cleaning power. PSI provides the "oomph" you need to lift dirt and grime, and GPM provides the necessary quantity of water to wash it away. Multiply PSI by GPM. The higher the number, the greater the cleaning power.

GPM stands for "gallons per minute." It describes how much water is flowing through the pressure washer.

Bringing 50+ Years of Expertise to Power Washers

Generac power washers are built upon decades of knowledge designing and building power equipment. Since 1959, Generac's primary focus has been on residential, commercial and industrial generators. Then, in the early 1990s, we applied our knowledge of air-cooled engines and portable product design to power washers; it was a natural evolution. And for the first time power washers were readily available to consumers at a price they could afford. Along the way, we were granted several patents that have since changed the industry. Now we bring you an entirely redesigned family of power washers, designed specifically to meet the needs of consumers and professionals alike.

EVEN IF doors and windows are open. Only use OUTSIDE, and far away from windows,

A TRADITION OF QUALITY AND INNOVATION

For over 50 years, Generac Power Systems has been a leader in innovative design and superior manufacturing. When it comes to developing products that are both durable and reliable, we stand head and shoulders above our competition. The result of our efforts can be seen across our many product offerings.

We design and build engine-driven power generation equipment, automatic transfer switches, control systems, air-cooled engines and power washers.

Regardless of the product, our vertical integration allows us to control the quality, availability and flow of materials throughout the manufacturing process. And each product is factory tested prior to shipment.

It is this ongoing commitment to quality and innovation that has made Generac a name that people have come to trust.

COMMITMENT TO SERVICE

Generac power washers are supported through an extensive nationwide service network that provides parts and technical support to homeowners and contractors. For a power washer dealer near you, visit generac.com.
