

Gasoline-powered, direct-drive, pressure washer

Cold water power with handtruck design for commercial applications

Cold Water | Gas Powered | Direct Drive

HD Handtruck Design

This series of commercial-duty, gas-powered cold water pressure washers offers the ideal balance between professional performance and value. Powered by reliable Honda engines, all four models have Kärcher's German-engineered, direct-drive axial pump, rugged steel frame with handtruck design, tubed pneumatic tires and 50' of commercial-duty hose (GX engine model come with a 100 ft. hose reel).

Powerful and durable

- Rugged steel frame and power platform, with easy-to-manuever handtruck design, is painted with a black, wrinkle-coat finish for all- weather protection.
- Reliable Honda engine with two-year warranty, low-oil alert and silent-tone muffler; 9 and 13 HP models have an EZ-start valve for resistance-free pull starting of engine.
- Three-piston, direct-drive Kärcher axial pump with unique swash plate design has fewer moving parts for a highly efficient, smooth and quiet operation; brass cylinder head ensures extra durability and extended life.
- 50' durable wire braid hose rated for 3000 or 4000 PSI.
- Inlet strainer protects pump from debris in the water source.
- Top-mounted 100' hose reel (comes standard only on 9 and 13 HP models) simplifies clean up and reduces risk of high- pressure hose being damaged.

Smart features

- Easy-to-attach downstream detergent injector with brass soap nozzle.
- Five conveniently mounted, quick- couple spray nozzles for varying fan spray.
- Insulated, high-pressure trigger gun for hours of fatigue-free cleaning.

Outstanding mobility

- 10" tubed pneumatic tires for easy maneuvering on all terrains and to absorb vibration; front- mounted rubber feet also absorb vibration and keep the unit from "walking" during operation.
- Upright design for easy, ergonomic transport.
