

Powerplay Streetrod 2800 is built using best-in-class components that can withstand rugged use from any dirty job you throw its way. Putting the muscle behind the name with Briggs & Stratton's Horizontal Shaft 7.50 Engine and Annovi-Reverberi High Pressure Axial pump delivering a flow rate of 2.4 GPM. Engineered for comfort and stability thanks to our anti-vibration system (PAVS), the ergonomic design includes an ergonomically enhanced frame, oversized 12"x 3" wheels for great maneuverability and a 5.5L on board detergent tank. Streetrod can handle any cleaning job from siding and windows to stripping paint or power washing vehicles. Our machines are built to out perform and outlast the competition.
