# BR Series

## Cold Water Pressure Washer Gas/Diesel Powered | Belt Drive Pump | Cage Design

**T**HE BR is the heaviest-duty workhorse of the Kärcher-Shark cold water family with cleaning power of up to 5000 PSI. Eight models are powered by a variety of industrial-grade engines, including Honda and Vanguard, and all feature a triplunger, oil-bath, belt-drive Kärcher pump with a limited 7-year warranty, EZ start valve and an extra rugged roll cage made of 1/4-inch steel tubing, protected by an epoxy, powder coat finish and a limited lifetime warranty. The BR also has 13-inch tubed pneumatic tires, for easy maneuvering in all terrain, and variable pressure wand for convenience in altering the pressure with the twist of a handle.

**7** YEAR PUMP WARRANTY  
Durable, triplex, oil-bath, Kärcher high-pressure pump, with three ceramic pistons and forged brass manifold, backed by a limited 7-year warranty

Heavy-duty, insulated trigger gun is rated for 4500 PSI and features a fatigue-free handle

50 ft. of non-marking, color-coded, wire-braid hose with safety hose guard for operator protection against bursts

Insulated, variable pressure wand for altering of the pressure with a simple twist of the handle (model BR-455037E has a stainless steel, non-variable pressure wand)

Reliable **Honda engine** on most models with three-year limited warranty features low-oil alert and silent-tone muffler; also models with **Vanguard** gas and **Lombardini** diesel engines

Easy-to-understand illustrated **operating instructions** for multi-lingual operator and owner protection

Safety **thermal pump saver valve** protects against hot-water damage by venting recirculated water

**LIMITED LIFETIME WARRANTY ON CHASSIS**

Rugged **roll cage** and **chassis** made of 1/4-inch steel, with limited lifetime warranty and heavy-duty **lifting beam** for ease in loading and transporting, and painted with an **epoxy powder coat finish** for all-weather resistance

Totally enclosed, OSHA-compliant, high-impact polyethylene **belt guard** for operator protection

Easy-to-attach downstream **detergent injector**

Notched **V-belts** and cast-iron **pulleys** reduce belt slippage and provide longer pump life, plus easy-to-adjust **belt tension** with a single bolt

Certified to UL-1776 Safety Standards

Powered by **HONDA ENGINES**

Vibration-absorbing 13" tubed **pneumatic tires** with **steel wheels** for all-terrain maneuvering

High-quality, tamper-proof **unloader valve** is not attached directly to the pump, but is mounted on a brass block attached to the chassis for ease in servicing

Four conveniently mounted, color-coded, **stainless steel nozzles** for varying the fan spray

**Keep replacement parts at the tip of your fingers**  
Our Kärcher-Shark Parts Box includes an assortment of the most commonly used replacement parts—couplers, spray nozzles, and O-rings—all conveniently sorted in a heavy-duty tote box.

### U-Seal Technology

Kärcher crank-case pumps now feature new U-Seal technology, giving pumps longer life and better performance.

E = Electric start; battery not included

**THE ONLY PRESSURE WASHERS  
BUILT RENTAL TOUGH**

## BR **Beefiest cold water pressure washer on the market**

*Models include dual-axle design, diesel-powered and high-pressure up to 5000 PSI*

The Kärcher-Shark BR series is the most rugged cold water pressure washer on the market with two models that deliver cleaning power of up to 5000 PSI. Also in the line are four dual-axle models, including one model that is powered by a 10 HP Lombardini diesel engine.

Dual-axle model of the BR cold water pressure washer

## DETERGENTS **Fast-cleaning, commercial-grade**

*Custom formulated especially for pressure washers*

Kärcher-Shark's biodegradable detergents are highly concentrated to deliver an extra-fast and economical dimension to your cleaning effectiveness. Graffiti removal is made easy using Kärcher-Shark's unique product formulas that require no extended soak time and can be reapplied immediately.

## CYCLONE SURFACE CLEANER

*Attaches to a pressure washer to clean flat surfaces faster*

The optional Kärcher-Shark Cyclone attaches to a hot or cold water pressure washer (up to 185°F) to clean flat surfaces as much as three times faster than with a wand. Featuring a self-lubricating rotary union, the spray bar whirls at a rate of up to 2000 RPM. It's lightweight with a polyethylene housing and has two pneumatic tires and a sealed swivel caster for easy maneuvering in tight places.

## WHY KÄRCHER

*The undisputed world leader*

Kärcher is a pioneer in high-pressure cleaning equipment inventing the first hot water pressure washer in 1950. Today, Kärcher is the world's largest manufacturer of pressure washers and is the undisputed leader in innovation with more than 300 patents. Kärcher was the only brand of pressure washer invited to perform the first ever cleaning of Mount Rushmore in 2005.

*More than 80 hot- and cold-water models!*

## BENEFITS

*Here are the Top 7 reasons Kärcher-Shark is America's #1 name in pressure washers*

With the merging of Shark and Kärcher, our customers reap the benefits of a one-stop shop for pressure washer supplies, such as:

**1. More than 40,000 different replacement parts and accessories in stock or ready to order when you need them most;**

**2. A huge selection of more than 80 hot- and cold-water pressure washers;**

**3. Same-day shipping on more than 30 of our most popular hot- and cold-water pressure washers as part of the popular Kärcher Ship Program (KSP);**

**4. Competitive pricing on hoses, guns, wands, nozzles, repair kits, and pressure washer components;**

**5. Stainless steel coil wraps that now come standard on nearly all of our hot-water pressure washers;**

**6. A wide selection of detergents formulated specifically for pressure washers, including the new portion packs that come in self-dissolving bags for easy storing and mixing;**

**7. A handy and affordable Kärcher-Shark Parts Box that puts the most often needed pressure washer parts at your fingertips.**
