SIMPSON SM1200 FAQ'S

- Q: What type of chemical cleaner is recommended for this unit?**
A: Vital Oxide. However, many other disinfectants could be used. (Consult your preferred chemicals SDS for proper use and dispensing)
- Q: How is water or chemical drawn?**
A: Using its supply hose, place the filter end in a bucket, a 55 gallon drum, or other source.
- Q: How far above or below the pump can it draw water or chemicals?**
A: The unit can draw vertically up to 5 feet.
- Q: In misting mode, how long can the unit draw from a 5 gallon bucket?**
A: The unit can draw up to 1 hour and 40 minutes in misting mode from a 5 gallon bucket
- Q: Can two misting guns be used at the same time?**
A: Yes. Two or three misting guns can be used at the same time with the optional dual misting kit and accessories.
- Q: Can I purchase a longer Wand?**
A: Yes. A 31" wand is available #80479
- Q: Can the unit siphon soap like a standard pressure washer?**
A: Yes. The unit also includes a standard pressure washer siphon hose and filter.
