GENERAL SAFETY INFORMATION

Please read and save these instructions. Read carefully before attempting to assemble, install, operate or maintain the product described. Protect yourself and others by observing all safety information. Failure to comply with instructions could result in personal injury and/or property damage! Retain instructions for future reference.

WARNING: RISK OF BURSTING

- *Make sure that pressure does not exceed 5000 PSI maximum working pressure rated for the reel.*
- *Never make adjustments on hose reel while in operation.*
- *Before connecting hoses, make sure that the reel is installed properly.*
- *Be certain all connections are secure and inspect for leaking before using pressure washer.*

DANGER: RISK OF INJURY FROM SPRAY

- *Always wear safety glasses or goggles and appropriate clothing.*
- *Never point the high-pressure discharge at a person, any part of the body or animals.*
- *Keep operating area clear of all persons.*
- *Do not allow children to operate this product. Do not use around children. This product must be attended during operation.*

WARNING: RISK OF HOT SURFACES

- *Maximum water temp is 325 °F. Water must be clean fresh water.*
- *Do not operate gasoline engines in a confined area; always have adequate ventilation.*

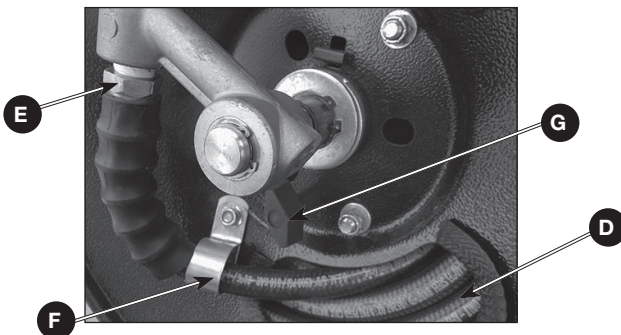

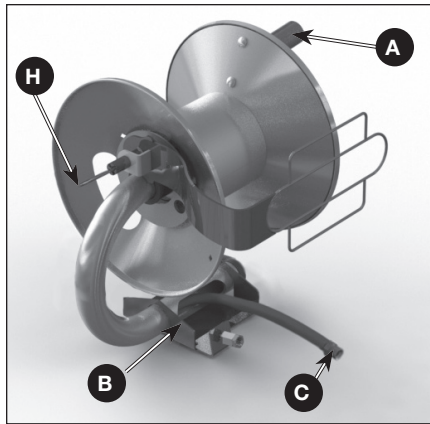

△WARNING: *This product and its exhaust can expose you to chemicals including lead and lead compounds, and carbon monoxide, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.*

NOTE: **Photographs and line drawings used in this manual are for reference only and do not represent a specific model. Photographs and line drawings may differ from actual product.**

INSTALLATION

INSTALLATION AND SETUP

1. Attach the handle (A) to flange assembly using the nuts/bolts provided.
2. Mount base (B) on a proper surface using appropriate fasteners. Make sure mounting is secure.
3. Apply sealant tape to water supply hose fitting and connect to hose reel inlet fitting (C). Always ensure connections are secure.
4. Route output hose (D) through hose guide, flange assembly slot and clamp (F).
5. Apply sealant tape to output hose and connect to hose reel swivel (E). Always ensure connections are secure.
6. Tighten clamp (F).
7. Extend hose and wind onto the reel drum by turning the handle with the lock pin (H) unlocked. Lock reel when not used.
8. To adjust reel tension, turn the tensioning nut (G) on the side of the reel. Clockwise to tighten. Counterclockwise to loosen.
