

Dial-N-Wash[®]

PROFESSIONAL PRESSURE REGULATOR

Dial-N-Wash KEY FEATURES

Select correct pressure for the cleaning application

Universal to most gas pressure washers up to 4500 PSI with any standard spray wand and standard gun with M22 connectors

Adjust pressure from 1000 PSI to MAX PSI with a simple twist

ABOUT THE Dial-N-Wash

The Dial-N-Wash allows you to easily select the correct pressure for the desired cleaning application with a simple twist! Clean hard surfaces such as, brick and concrete siding on its higher pressure setting and clean fences, decks, and wood siding by twisting to it's medium setting. Even clean delicate surfaces such as boats or vehicles by twisting to its lowest pressure setting. The Dial-N-Wash allows you adjust pressure without having to walk all the way back to your machine allowing you to clean multiple surfaces in just one use. Its hassle free/no tools assembly allows you to effortlessly install onto your gun.
