Color.....Yellow
Odor.....Bleach
pH.....13
Form.....Powder
Flash Point.....212°F
Foam.....Low
Biodegradable.....100%

House & Wood Care

Powder House

Heavy Duty Powdered Mold & Mildew Remover

WHAT IS POWDER HOUSE?

PowderHouse is a powdered mold & mildew remover specially formulated with heavy duty detergents and sodium hypochlorite to remove the toughest mold and mildew stains. This product is as active as heavy duty chlorine solutions, and is much more stable and safer to handle. PowderHouse eliminates corrosive handling and evaporation of conventional Mold & Mildew Removers. Mix with water, spray on and watch the stains disappear. Product has low levels of foam for enhanced cleaning.

BENEFITS:

- Removes mold & mildew without scrubbing.
- Allows for safe handling of bleach.
- Twice as stable as Chlorine Bleach.
- More economical and easier to use than conventional methods.
- Contains boosters that enhance the productivity of the solution.
- Very economical in use.
- Can be used for residential use as well as commercial use.
- PowderHouse actually kills the bacteria needed to allow regrowth of mold and mildew.

DIRECTIONS FOR USE:

Before using, make sure that the desired surface is cool to prevent early evaporation. Read MSDS and test in a small inconspicuous area.

Consult your local Syntec Representative for specific use instructions.

IF DILUTED SOLUTION IS GOING TO SIT FOR ANY PERIOD OF TIME, OR WILL BE IN CONTACT WITH WARM AIR, MUST KEEP IN A VENTED CONTAINER OR CONTAINER COULD BURST!

Make sure to use proper protective clothing when applying this or any chemical.
